

# Receta Translation Guidelines

1. Read through recipe and highlight words (*in ingredients and directions*) you don't know how to say in Spanish.
2. Decide if you need to OMIT, REWORD or TRANSLATE each highlighted word. **Hint!** *Nouns can be translated easily. Adjectives and verbs are easier to reword or delete if they aren't crucial to the recipe.*
3. Look up words you want to translate and write the definitions on your paper.
4. Look for ways to simplify the recipe and ingredients.
5. Simplify and translate the recipe into Spanish.

*Tuesday's Recipe assignment is homework if you don't finish in class.*
