

Student's name _____

Period _____

Mrs. Nesrsta's conference period: 5th

Email: pnesrsta@dpisd.org

Welcome to Precalculus. My goal is to have every child engaged in the learning process. While students are expected to be responsible for their own educational experience, I would like for us to be able to contact each other throughout the year. Good communication will allow us to work together to make this year a successful one for your child. To that end, please complete this form (front and back) with as accurate information as possible. Sharing your perceptions about your child's education will help me to better understand your child and tailor his/her math experience this year. For those of you who include an email address, I will send out notices regarding major tests and projects. This is a quick way for me to keep you updated on what is expected of your child. For a list of class assignments and notices, you may also visit my classroom webpage. Please feel free to email me with any concerns, questions, or comments that may arise this school year. Please read the class syllabus to for an explanation my expectations, policies and procedures in the classroom.
