## INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees  
Deer Park Independent School District  
Deer Park, Texas

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Deer Park Independent School District (the "District") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Trustees  
Deer Park Independent School District

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6-14, budgetary comparison information on pages 60-61 and pension schedules on pages 62-64, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, and required Texas Education Agency ("TEA") schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget ("OMB"); Title 2 U.S *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the required TEA schedules, as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required TEA schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Trustees  
Deer Park Independent School District

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## **DEER PARK INDEPENDENT SCHOOL DISTRICT**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the Deer Park Independent School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017.

#### **Financial Highlights**

The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$141,918,557 (net position). Of this amount, \$66,248,361 (unrestricted net position) may be used to meet the District's ongoing obligations to students and creditors.

- The District's total net position decreased by \$1,601,091.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$85,345,543, a decrease of \$5,040,379 in comparison with the prior year. The overall decrease in governmental fund balances was primarily due to a decrease in the capital projects fund balance of \$5,098,537.
- During the current fiscal year, unassigned fund balance for the general fund is 28 percent of total general fund expenditures.
- The District's total bonded debt decreased by \$15,910,000 (7 percent) during the current fiscal year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

#### **Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows, liabilities, and deferred inflows, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years (e.g., uncollected taxes and earned but unused sick leave).

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

The *government-wide financial statements* of the District are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, Instructional Leadership, School Leadership, Guidance, Counseling, and Evaluation Services, Social Work Services, Health Services, Student Transportation, Food Services, Cocurricular/Extracurricular Activities, General Administration, Facilities Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Community Services, Interest on Long-term Debt, Bond Issuance Costs and Fees, Facilities Repair and Maintenance, Payments to Juvenile Justice Alternative Education Programs, and Other Governmental Charges.

**Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds**

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on *balances of spendable resources* available at the end of the current fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains individual governmental funds for general, special revenue, debt service, and capital projects. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and the capital projects fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its general fund, debt service fund, and National School Breakfast and Lunch Program special revenue fund.

**Proprietary Fund**

*Internal service funds*, one type of proprietary fund, are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. Because this service predominantly benefits governmental functions, it has been included within *governmental activities* in the government-wide financial statements. The District maintains individual internal service funds for health insurance, workers' compensation insurance coverage, USA club swim and early childhood extended day care center.

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund financial statements provide separate information for the Health Insurance fund, the Worker's Compensation Insurance fund, the Early Childhood Center (ECC) Extended Day Care fund, and the USA Club Swim fund.

**Fiduciary Fund**

The fiduciary funds are used to account for resources held for the benefit of students and employees. The District's *private purpose trust fund* is used to account for donations for scholarship funds that are received by the District to be awarded to students for post-secondary education purposes and for the student loan program. The District's *agency fund* is used to account for resources held in a custodial capacity by the District and consists of funds that are the property of students or others. The fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. The funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the current fiscal year. This is required supplementary information for the general fund and any major special revenue funds. The District did not have any major special revenue funds; therefore, only the general fund is presented as required supplementary information.

**Other Information**

The combining and individual fund statements and schedules and other supplementary information are presented immediately following the required supplementary information.

**Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$141,918,557 at the close of the most recent fiscal year.

A large portion of the District's net position (\$71,310,616) reflects its investment in capital assets (e.g., land, buildings and improvements, furniture and equipment, construction in progress), less any outstanding related debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

As of June 30, 2017, the District's net position included the following:

	<b>Governmental Activities</b>	
	<b>2017</b>	<b>2016</b>
Current and other assets	\$ 109,224,592	\$ 113,752,970

<b>Total Net Position</b>	<b>\$ 141,918,557</b>	<b>\$ 143,519,648</b>

Net position is restricted for various purposes as follows:

	<b>Governmental Activities</b>	
	<b>2017</b>	<b>2016</b>
Federal and state programs	\$ 11,424	\$ 24,567
Food service	173,837	93,135
Debt service	4,174,319	2,850,123
	<b>\$ 4,359,580</b>	<b>\$ 2,967,825</b>

The balance of unrestricted net position (\$66,248,361) may be used to meet the District's ongoing obligations to students and creditors. At the end of the current fiscal year, the District reports positive balances in all three categories of net position. The District's net position decreased by \$1,601,091 during the current fiscal year.

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

**Governmental Activities**

Governmental activities decreased the District's net position by \$1,601,091. Revenues are generated primarily from three sources. Property taxes, state-aid formula grants, and operating grants and contributions represent 96 percent of total revenues. The remaining is generated from charges for services, investment earnings, and miscellaneous revenues.

	<u>Total Revenues</u>	<u>% of Total Revenues</u>
Property taxes	\$ 119,073,235	76%

<b>Total Revenues</b>	<u>\$ 156,484,600</u>	<u>100%</u>

The primary functional expenses of the District are instruction, facilities maintenance and operations, which represent 62 percent of total expenses. The remaining individual functional categories of expenses are each less than 5 percent of total expenses.

	<u>Total Expenses</u>	<u>% of Total Expenses</u>
Instruction	\$ 82,776,932	52%

<b>Total Expenses</b>	<u>\$ 158,085,691</u>	<u>100%</u>

**Financial Analysis of the Government's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the current fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$85,345,543, a decrease of \$5,040,379 in comparison with the prior fiscal year. The decrease in ending governmental fund balances is primarily due to a planned decrease in the capital projects fund balance related to the District's ongoing construction projects and a budgeted decrease to the debt service fund.

The *general fund* is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$32,454,619, while total fund balance reached \$74,792,519. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 28 percent of total general fund expenditures, while total fund balance represents 64 percent of that same

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

amount. The fund balance of the District's general fund decreased by \$741,465 primarily due to the following three reasons: 1) transferring \$250,000 from the general fund to the child nutrition fund, 2) a property tax refund of \$786,410, and 3) TEA has approved the district to use the alternative free and reduced student counts for state compensatory education. This will result in the district receiving a net amount of \$2,900,000 (since payment was not paid to the district within 60 days of the end of the fiscal year the district is unable to account for these monies as current year revenue).

The *debt service fund* has a total fund balance of \$6,642,882, all of which is restricted for the payment of debt service. The net increase in the debt service fund balance during the current year of \$664,344 was in line with budgeted expectations.

The *capital projects fund* has a total fund balance of \$3,201,015, all of which is restricted for authorized construction and technology projects/enhancements. The decrease in fund balance during the current year of \$5,098,537 was due to ongoing renovations and projects.

**General Fund Budgetary Highlights**

Differences between the original budget and the final amended budget of the general fund can be briefly summarized as follows:

	<b>Budget</b>	
	<u>Original</u>	<u>Final Amended</u>
Total revenues	\$ 118,632,250	\$ 118,773,200
Total expenditures	118,632,250	119,456,079
<b>Net change in fund balance</b>	<u>\$ -</u>	<u>\$ (682,879)</u>

The review of the final amended budget versus actual for the general fund reflected that revenues were less than budgetary estimates, primarily in state revenues and expenditures were less than budgetary estimates, primarily in extracurricular activities.

**Capital Assets and Long-term Liabilities**

**Capital Assets**

The District's investment in capital assets for its governmental type activities as of June 30, 2017, includes land, buildings and improvements, furniture and equipment, and construction in progress. The investment in capital assets for the current fiscal year was \$294,313,014. The following table summarizes the investment in capital assets as of June 30, 2017 and 2016.

	<u>2017</u>	<u>2016</u>
Land	\$ 16,349,826	\$ 16,349,826
Buildings and improvements	389,042,062	388,275,325
Furniture and equipment	31,635,114	31,119,697
<b>Total</b>	<u>437,027,002</u>	<u>435,744,848</u>
Accumulated depreciation	<u>(142,713,988)</u>	<u>(129,639,891)</u>
<b>Net capital assets</b>	<u>\$ 294,313,014</u>	<u>\$ 306,104,957</u>

Additional information on the District's capital assets can be found in the notes to the financial statements.

**DEER PARK INDEPENDENT SCHOOL DISTRICT**  
**MANAGEMENT’S DISCUSSION AND ANALYSIS (continued)**

**Long-term Liabilities**

At the end of the current fiscal year, the District had \$208,790,000 in bonded debt outstanding, a decrease of \$15,910,000 over the previous year. The District’s bonds are sold with an “AAA” rating and are guaranteed through the Texas Permanent School Fund Guarantee Program. The underlying rating of the bonds from Standard and Poor’s is “Aa+” and from Moody’s Investors Service is “Aa1” for general obligation debt.

Changes in general obligation bonds, for the year ended June 30, 2017, are as follows:

<b>Outstanding</b> <b>07/01/16</b>	<b>Issued</b>	<b>Retired</b>	<b>Outstanding</b> <b>06/30/17</b>
\$ 224,700,000	\$ 9,795,000	\$ (25,705,000)	\$ 208,790,000

Additional information on the District’s long-term liabilities can be found in the notes to the financial statements.

**Economic Factors and Next Year’s Budgets and Rates**

- Certified taxable values for the 2017 are \$8,039,485,444 which is an increase from the 2016 certified value of \$7,616,932,796 by \$422.5M. Single family home values have continued to increase as the average taxable residential value has increased from \$89,232 in the 2016/17 fiscal year to \$104,698 for 2017/18.
- The tax rate for 2015/16 and 2016/17 was \$1.2367 for Maintenance and Operations (M&O) and \$0.32 for Interest and Sinking (I&S), for a total tax rate of \$1.5567 per \$100 of assessed value. The tax rate for 2017/18 is the same rate for both M&O and I&S.
- Total expenditures per student in the District’s General Fund (100) were \$9,014 for 2016/17. The budgeted expenditures per student in the District’s General Fund are \$9,318 for the 2017/18 fiscal year.
- The District has three fully executed Chapter 313 Agreements. Two of the companies have pushed back the projects by a year. These Chapter 313 Agreements limit the taxable value of these projects at \$80 million for M&O tax purposes, these projects are fully taxable for I&S purposes, and the companies pay a portion of the tax savings to the district. These payments are not subject to Chapter 41 or ‘recapture’.
- The total Deer Park ISD adopted budget for all funds for 2017/18 is \$153,488,306 (M&O: \$121,594,500, I&S: \$24,480,000, and Child Nutrition: \$7,413,806).

**Requests for Information**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District’s finances and to demonstrate the District’s accountability for the money it receives. **RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

*For the Year Ended June 30, 2017*

<u>Data Control Codes</u>		
	Net change in fund balances - total governmental funds (from C-3)	\$ (5,040,379)
	Amounts reported for <i>governmental activities</i> in the statement of activities (B-1) are different because:	
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
1	Governmental funds capital outlays	2,300,557
2	Governmental activities depreciation expense	(14,034,116)
	Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of	
3	Activities reports only the gain on the sale of the assets. Thus, the change in net position differs from the change in fund balance by the cost of the asset sold.	(58,384)
4	Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(423,994)
5	State aid revenue in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	763,368
6	Repayment of bond principal is an expenditure in the governmental fund, but the repayment	14,795,000
	Proceeds from issuance of long-term debt is reported as an other financing source in the governmental funds. In the government-wide financial statements, proceeds are treated as an increase in long-term liabilities and amounts paid to refunding agents are treated as a decrease in long-term liabilities.	
7	Proceeds from issuance of refunding bonds	(9,795,000)
8	Premium issued on refunding bonds	(1,459,873)
9	Payments to refunding agent	11,064,113
10	Pension contributions made during the current fiscal year are reported as expenditures in the governmental funds and are reported as deferred outflows and reductions in net pension liability as opposed to expenses in the statement of activity.	2,573,914
	Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
11	Decrease in interest payable not recognized in fund statements	250,329
12	Decrease in long-term portion of accrued compensated absences	8,311
13	Accreted interest on capital appreciation bonds	
14	Amortization of bond premium	2,310,486
15	Amortization of deferred loss on refunded bonds	(386,414)
16	Pension expense for the pension plan measurement year	(4,760,492)
17	Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities (see D-2).	291,483

**Note 1 - Summary of Significant Accounting Policies**

**A. Reporting Entity**

The Deer Park Independent School District (District) is governed by a seven-member Board of Trustees (Board), which has governance responsibilities over all activities related to public elementary and secondary education within the District. Because members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity.

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Deer Park Independent School District (the primary government).

Prior to January 1, 2013, the District participated in a self-funded health plan. The Deer Park Independent School District Medical Insurance Plan (the "Plan") was supervised by Trustees selected by the District. For financial reporting purposes, the Plan is reported as if it were part of the District's operations because its purpose is to provide benefits exclusively for the District. Although discontinued, the Plan's financial statements are included in the District's internal service funds, which are blended with other governmental activities in the government-wide financial statements, and will continue to be reported as such until it is determined that no runoff medical claims exist.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities* normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or users who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)**

The fiduciary fund financial statements reflect the District's agency fund and private purpose trust fund. The private purpose trust fund reports using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Grant revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.
- The *capital projects fund* is used to account for proceeds from sales of bonds and other revenues to be used for authorized construction and technology projects/enhancements.

Non-major governmental funds of the District include federal, state, and local grant funds accounted for as *special revenue funds* as well as the District's campus activity fund.

Additionally, the District reports the following fund types:

- The *internal service fund* is a type of proprietary fund which accounts for workers' compensation and health services provided to other funds and/or employees of the District on a cost reimbursement basis. In addition, the internal service fund accounts for the District's extended day care program and the USA Club Swim program.
- The *agency fund* is a type of fiduciary fund and is used to account for assets held by the District as an agent for student organizations. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operation.
- The *private purpose trust fund* a type of fiduciary fund that is used to report all trust arrangements, other than those properly recorded in pension trust funds or investment trust funds, under which principal and income benefit individuals, private organizations, and other governments. The District accounts for student scholarships and student loans in a private purpose trust fund.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)**

Amounts reported as *program revenues* include 1) charges to students or users for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and investment income.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges to the funds and/or employees services related to the activity of the individual funds. Operating expenses for the internal service fund include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**D. Implementation of New Standards**

In the current fiscal year, the District implemented the following new standards. The applicable provisions of these new standards are summarized below. Implementation is reflected in the financial statements and the notes to the financial statements.

GASB Statement No. 82, *Pension Issues-An amendment of GASB Statements No. 67, No. 68 and No. 73*, addresses the presentation of payroll-related measures in required supplementary information, selection of assumptions and the treatment of deviations from the guidance in an actuarial standard of practice for financial reporting purposes, and the classification of payments made by employers to satisfy employee contribution requirements.

GASB Statement No. 77, *Tax Abatement Disclosures*, applies to financial reports of all state and local governmental entities, addresses the reduction of tax revenues resulting from an agreement between a government and an individual in which the government forgoes tax revenues and the individual promises to take specific action as a result of the agreement that contributes to the economic development to benefit the government or citizens of the government, and relates to agreements entered into by the reporting government or agreements entered into by other governments that reduce the reporting government's tax revenues. In fiscal year 2017, the District did had several tax abatements which are described in Note 19.

**E. Deposits and Investments**

Investments for the District are reported at fair value. The funds of the District must be deposited and invested under the terms of a depository contract, the contents of which are set out in the Depository Contract Law. The depository bank may either place approved pledged securities for safekeeping and trust with the District's agent bank or file a corporate surety bond in an amount sufficient to protect district funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of FDIC insurance. The depository cash balances were covered by FDIC insurance and by collateral held by the District's agent in the District's name. The District categorizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79 *Certain Investment Pools and Pool Participants*.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**F. Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax receivables include unpaid property taxes at year-end and are shown net of an allowance for uncollectibles. Allowances for uncollectible taxes receivable are based on the District's historical experience in collecting property taxes. Revenues from property taxes are recognized when levied to the extent they are available. The District considers property taxes as available when collected. However, not all outstanding property taxes are expected to be collected within one year of the date of the financial statements. Property values are determined by the Harris County Appraisal District as of January 1 of each year. The net assessed/appraised value for school tax purposes for fiscal year 2017 (tax year 2016) was \$7,728,830,796. Prior to July 1 of each year, the District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. The combined tax rate for fiscal year 2017 was \$1.5567, which was made up of \$1.2367 for maintenance and operations and \$.3200 for debt service. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. The total adjusted levy for fiscal year 2017 was \$120,314,709. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1

**G. Inventories and Prepaid Items**

Inventories consisting of supplies and materials are valued at weighted average cost and they include maintenance, transportation, office and instructional supplies, and food service commodities. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Food service commodity inventory is recorded at fair market value on the date received. Commodities are recognized as revenues in the period received when all the eligibility requirements are met. Commodity inventory items are recorded as expenditures when distributed to user locations. A portion of fund balance is classified as non-spendable to reflect minimum inventory quantities considered necessary for the District's continuing operations.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

**H. Capital Assets**

Capital assets, which include land, construction in progress, buildings and improvements, furniture and equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost that equals or exceeds \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**H. Capital Assets (continued)**

Buildings and improvements, and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	60
Building improvements	Remaining life of building or 30 years, whichever is less
Furniture and equipment	10
Information systems (computer equipment)	7
Automobiles and trucks	10
Buses and heavy equipment	15

**I. Compensated Absences**

Compensated absences are absences for which employees will be paid, such as sick leave. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the government and its employees is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the government and its employees are accounted for in the period in which such services are rendered or such events take place.

In the governmental funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for them. The remainder of the compensated absences liability is reported in long-term liabilities on the statement of net position.

**J. Long-term Obligations**

The District's long-term obligations consist of bonded indebtedness, health insurance, workers' compensation, and compensated absences. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities and proprietary fund type statement of net position.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund.

The current requirements for workers' compensation and compensated absences are accounted for in the general fund. The requirements for health insurance and workers' compensation insurance are accounted for in the internal service fund.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**K. Deferred Outflows/Inflows of Resources**

A *deferred outflow of resources* is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred outflows of resources for refunding - Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amount of deferred outflows reported in the governmental activities for a deferred charge on refunding at June 30, 2017 was \$4,157,449.
- Deferred outflows of resources for pension – Reported in the government wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan. The amount of deferred outflows reported in the governmental activities for deferred pension expenses at June 30, 2017 was \$15,546,153.

A *deferred inflow of resources* is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes and state aid arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The amount of deferred inflows of resources reported in the governmental funds at June 30, 2017 was \$7,728,893.
- Deferred inflows of resources for pension – Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the District's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan. The District reported deferred inflows of resources for pensions in the governmental activities in the amount of \$4,854,248.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**L. Pensions**

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**M. Fund Equity**

The Districts reports fund balances in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form or are required to be maintained intact. As such, the inventory and prepaid items have been properly classified in the Governmental Funds Balance Sheet (Exhibit C-1).

Restricted fund balance – amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors. The fund balances for the Debt Service Fund, Capital Projects Fund, Child Nutrition Fund and other grant funds are classified as restricted.

Committed fund balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The general fund has committed funds consisting of the budget reserve account in the amount of \$28,000,000. The budget reserve account was legislated to set aside resources to cover unanticipated deficits or revenue reductions that may be caused by adverse economic conditions. In addition, the general fund has committed funds consisting of insurance deductibles in the event of a catastrophic loss in the amount of \$5,000,000, for capital expenditures of equipment in the amount of \$4,000,000, and for construction in the amount of \$3,000,000. The fund balance of the District's campus activity fund as of June 30, 2017 in the amount of \$526,377 is committed fund balance.

Assigned fund balance – amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates the authority. The District's has assigned fund balances for encumbrances (See Note 1-L).

Unassigned fund balance – amounts that are available for any purpose. Positive numbers are reported only in the general fund.

The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. A fund balance commitment is further indicated in the budget document as a commitment of the fund. Per Policy CE local, assigned fund balance amounts are established by the Superintendent or his designee. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**N. Encumbrances**

The District utilizes encumbrance accounting in its governmental funds. Encumbrances represent commitments related to contracts not yet performed (executory contracts), and are used to control expenditures for the period and to enhance cash management. A school district often issues purchase orders or signs contracts for the purchase of goods and services to be received in the future. At the time these commitments are made, which in its simplest form means that when a purchase order is prepared, the appropriate account is checked for available funds. If an adequate balance exists, the amount of the order is immediately charged to the account to reduce the available balance for control purposes. The encumbrance account does not represent an expenditure for the period, only a commitment to expend resources.

Prior to the end of the fiscal year, every effort should be made to liquidate outstanding encumbrances. When encumbrances are outstanding at fiscal year-end, the school district likely will honor the open purchase orders or contracts that support the encumbrances. For reporting purposes, as noted earlier, outstanding encumbrances are not considered expenditures for the current period. If the school district allows encumbrances to lapse, even though it plans to honor the encumbrances, the appropriations authority expires and the items represented by the encumbrances are usually re-appropriated in the following year's budget. Open encumbrances at year-end are included in restricted, committed, or assigned fund balance, as appropriate.

At June 30, 2017, certain amounts which were previously assigned for specific purposes have been encumbered in the governmental funds. Significant encumbrances reported as assigned fund balance in the general fund total \$204,317.

**O. Data Control Codes**

The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.

**P. Use of Estimates**

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Note 2 - Deposits and Investments**

**Cash Deposits:** The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities are approved by the Texas Education Agency and shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. The District's cash deposits at June 30, 2017 of \$20,980,933, were entirely covered by FDIC insurance and pledged securities held by the District's agent in the name of the District.

**Note 2 - Deposits and Investments (continued)**

**Investments:** The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. The District further limits its investments to obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, collateralized mortgage obligations, no-load money market mutual funds, certain municipal securities, qualified commercial paper, repurchase agreements, or investment pools.

**Local Government Investment Pools**

For the year ended June 30, 2017, the District invested in the State of Texas Texpool, the Local Government Investment Cooperative (Logic), Lone Star and MBIA Texas Class Investment Pool.

TexPool is a public funds investment pool created by the Texas Treasury Safekeeping Trust Company (Trust Company) to provide a safe environment for the placement of local government funds in authorized short-term, fully-collateralized investments, including direct obligations of, or obligations guaranteed by, the United States or State of Texas or their agencies; federally insured certificates of deposit issued by Texas banks or savings and loans; and fully collateralized direct repurchase agreements secured by United States Government agency securities and placed through a primary government securities dealer. The Trust Company was incorporated by the State Treasurer by authority of the Texas Legislature as a special purpose trust company with direct access to the services of the Federal Reserve Bank to manage, disburse, transfer, safekeep, and invest public funds and securities more efficiently and economically. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. TexPool operates in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940.

TexPool uses amortized cost to report net position to compute share prices. The fair value of the position in TexPool is the same as the value of TexPool shares. Accordingly, the District's investments in TexPool are stated at cost, which approximates fair value. TexPool is currently rated AAAM by Standard and Poor's. This rating indicates excellent safety and a superior capacity to maintain principal value and limit exposure to loss.

Lone Star Investment Pool (LSIP) is a Texas public investment pool sponsored by the Texas Association of School Boards (TASB) for investment of funds by state and local government entities, primarily local school districts. The Board has entered into an agreement with First Public, LLC (First Public), a Texas limited liability company and a member of the National Association of Securities Dealers, Securities Investor Protection Corporation, and Municipal Securities Rulemaking Board, pursuant to which First Public serves as administrator of LSIP's operations. American Beacon Advisors, Fort Worth, Texas, and Standish Mellon Asset Management Company, LLC, Pittsburgh, Pennsylvania, provide investment management services to LSIP regarding the investment and reinvestment of the pool's assets. The fund's credit quality is excellent as its portfolio is composed of U. S. government and U. S. agency securities. Investments in LSIP provide for investment in securities with maturities and returns generally greater than money market instruments. LSIP is marked-to-market daily to maintain an accurate net asset value. LSIP is currently rated AAAM by Standard and Poor's. This rating indicates excellent safety and a superior capacity to maintain principal value and limit exposure to loss. The District's amortized cost in LSIP is the same as the value of the pool shares.

The Local Government Investment Cooperative (Logic) is a "Constant Dollar" net asset value poll and is administered by First Southwest and JP Morgan Chase. Logic maintains three primary goals for investing public funds; safety, liquidity and yield. The District's amortized cost in Logic is the same as the value of the pool shares.

**Note 2 - Deposits and Investments (continued)**

MBIA Texas Class Pool is duly chartered by the State of Texas Interlocal Cooperation Act, is administered and managed by MBIA Municipal Investors Service Corporation. Wells Fargo Bank N.A. is the custodial bank. The primary objectives of MBIA Texas Class Pool, is to maintain safety of principal while providing participating government entities (Participants) with the highest possible rate of return for invested funds. The District's amortized cost in the MBIA Texas Class Pool is the same as the value of the pool shares.

**Mutual Funds**

Lone Star Corporate Overnight Plus Fund is duly chartered by the State of Texas Interlocal Cooperation Act and is administered by First Public, LLC, and managed by Bank of New York Mellon and American Beacon Advisors. The Bank of New York is the custodial bank. The Corporate Overnight Plus Fund may invest in all securities authorized under the Investment Act. However, it is the Board's policy to have these additional restrictions:

- The Corporate Overnight Plus Fund shall not invest its assets in any one nongovernmental issuer in an amount that exceeds 5 percent of the total fund assets at cost.
- If an A-1 or P-1 investment is placed on the watch list with negative implications by a rating agency, the investment manager must sell the investment within one week.

**Insured Deposit Portal**

Insured Deposit Portal ("IDP") is a federally insured deposit program. IDP represents a fiduciary level investment in well capitalized FDIC insured community banks across the nation. The investments are spread among IDP's collection of banks in pieces no greater than the \$250,000 FDIC insured amount. Accordingly, the entire investment is FDIC insured. The District's investments in this program consist of certificates of deposit.

**Note 2 - Deposits and Investments (continued)**

**Interest Rate Risk:** Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio as a whole to no more than 360 days.

At June 30, 2017, the District's exposure to interest rate risk as measured by the segmented time distribution by investment type is summarized below:

	Carrying Value	Investment Maturity in Years	
		Less than 1	1-5
Certificates of Deposit	\$ 2,352,710	\$ 2,000,101	\$ 352,609

	<u>\$ 72,599,945</u>	<u>\$ 68,512,186</u>	<u>\$ 4,087,759</u>

**Credit Risk:** State law and the District's investment policy limits investments in all categories to top ratings issued by nationally recognized statistical rating organizations. As of June 30, 2017, the District's investment MBIA Texas CLASS, Logic and TexPool was rated AAAM by Standard and Poor's. The District's investment in Lone Star Corporate Overnight Plus Fund was rated AAAs by Standard and Poor's. The District's investment in Agency Securities were rated AAA by Standard and Poor's. The District's investment in Commercial Paper was rated A-1+ by Standard and Poor's.

**Concentration of Credit Risk:** The District's investment policy does not require the investment portfolio to be diversified in terms of investment instruments, maturity scheduling, and financial institutions in order to reduce the risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer. The District's investments in Lone Star, Commercial Paper, and Municipal Bonds represent 66 percent, 13 percent, and 12 percent, respectively, of the District's total investments.

The investments are reported by the District at fair value or amortized cost, where permitted. The amount of investment earnings during the year ended June 30, 2017, was \$602,404.

**Note 2 - Deposits and Investments (continued)**

The investments securities are reported by the District at fair value, while the investment pools are reported at amortized cost.

The District reports its local government investment pools at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. In addition, MBIA Texas Class, Logic, TexPool and Lone Star do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. The four pools do not impose any liquidity fees or redemption gates. The District’s U.S. Agency Securities are reported at fair value using Level 2 inputs.

**Note 3 - Receivables**

Receivables as of June 30, 2017, including the applicable allowances for uncollectible accounts, are as follows:

	<b>General Fund</b>	<b>Debt Service</b>	<b>Other Governmental Funds</b>	<b>Internal Service Funds</b>	<b>Fiduciary Funds</b>	<b>Total</b>

	<u>\$ 14,034,116</u>

The District had no active construction projects as of June 30, 2017.

**Note 5 - Interfund Receivables, Payables, and Transfers**

Interfund balances consist of short-term lending/borrowing arrangements that result primarily from payroll, warehouse ordering and other regularly occurring charges that are paid by the general fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more nonmajor governmental funds.

The composition of interfund balances as of June 30, 2017, is as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>	<u>Net</u>
General Fund	\$ 6,511,580	\$ 3,401,698	\$ 3,109,882
Debt Service	2,280,543	638,411	1,642,132

<b>Total</b>	<u>\$ 9,913,278</u>	<u>\$ 9,913,278</u>	<u>\$ -</u>

Interfund transfers are defined as “flows of assets without equivalent flow of assets in return and without a requirement for repayment.” The following is a summary of the District’s transfers for the year ended June 30, 2017:

<u>Transfer Out</u>	<u>Transfer In</u>	<u>Amount</u>
General Fund	Nonmajor Governmental Funds	<u>\$ 250,000</u>
		<u>\$ 250,000</u>

Interfund transfers were made from the general fund to the child nutrition fund to ensure the child nutrition fund had the necessary cash balance to close out the 2016-2017 school year.

**Note 6 - Compensated Absences and Other Retirement/Sick Leave Benefits**

Upon retirement or death of certain employees, the District pays any accrued sick leave in a lump sum cash payment to such employee or the employee’s estate. The value of the accumulated sick leave is determined by the employee’s rate of pay on June 30, 1991, and includes only those hours accumulated as of that date. Individuals employed after June 30, 1991, are not eligible to receive the lump sum payments. The following summarizes the District’s liability and the changes for the year:

	<u>Balance July 1, 2016</u>	<u>Additions</u>	<u>Deductions - Payments to Participants</u>	<u>Balance June 30, 2017</u>
Compensated absences payable	<u>\$ 99,561</u>	<u>\$ -</u>	<u>\$ (8,311)</u>	<u>\$ 91,250</u>

**Note 7 - Long-term Liabilities**

The District has entered into a continuing disclosure undertaking to provide annual reports and material event notices to the State Information Depository of Texas through the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of Deer Park Independent School District.

The District is subject to a legal debt margin in which the net indebtedness shall not exceed 10 percent of all assessed real and personal property in the District. At June 30, 2017, the legal debt margin amounted to \$549,165,100.

**Changes in Long-term Liabilities**

Long-term liability activity for the year ended June 30, 2017, was as follows:

	<b>Balance</b>			<b>Balance</b>	<b>Due Within One</b>
	<b>July 1, 2016</b>	<b>Additions</b>	<b>Retirements</b>	<b>June 30, 2017</b>	<b>Year</b>

	<u>\$ 208,790,000</u>	<u>\$ 67,689,149</u>	<u>\$ 276,479,149</u>

In July 2010 the District sold \$41,910,000 of bonds for capital projects. All but \$6,310,000 of this debt was issued under a new federal program titled “Build America Bonds,” through which the District receives semiannual subsidies equal to 35% of the interest it pays on the bonds. In the year ended June 30, 2017, the District received \$584,147 in such subsidies.

**Advance Refunding of Debt**

On August 9, 2016, the District issued Limited Tax Refunding Bonds, Series 2016 in the amount of \$9,795,000. The amount of the refunded bonds totaled \$10,910,000. The refunding resulted in an economic gain of \$1,085,179. As a result, the refunded bonds have been removed from the governmental activities column of the statement of net position. Interest rates on the bonds range from 1.5 to 5 percent. Premiums on the bonds totaled \$1,459,873. The deferred loss on the refunding of \$63,267 will be amortized over the life of the new or the refunded bonds, whichever is less.

**Prior Years’ Refunding of Long-Term Debt**

In prior years, the District defeased, certain general obligation debt by placing the proceeds of the new bonds in an irrevocable trust, to provide for all future debt service payments on the refunded debt. Accordingly, the trust account assets and the liability for the defeased debt are not included in the District’s financial statements. At June 30, 2017, there was no previously refunded debt outstanding that was considered defeased.

**Note 8 - Revenues from Local, Intermediate, and Out-of-State Sources**

During the current year, revenues from local and intermediate sources consisted of the following:

**Note 10 - Operating Leases**

Commitments under operating lease (non-capitalized) agreements for facilities and equipment are subject to fiscal funding clauses. As such, the agreements are cancelable and the District is therefore not obligated for minimum future rental payments as of June 30, 2017. The imputed interest on the leases is not readily determinable.

Rental expenditures for the year ended June 30, 2017, amounted to \$418,010.

**Note 11 - Defined Benefit Pension Plans**

**Plan Description**

The District participates in a cost-sharing multi-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position**

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at [https://www.trs.texas.gov/TRS%20Documents/cafr\\_2016.pdf](https://www.trs.texas.gov/TRS%20Documents/cafr_2016.pdf); by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

**Note 11 - Defined Benefit Pension Plans (continued)**

**Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

**Contributions**

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

	<b>Contribution Rates</b>

**Note 11 - Defined Benefit Pension Plans (continued)**

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA). Contributions and pension expense for all contributors were as follows:

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

**Note 11 - Defined Benefit Pension Plans (continued)**

**Actuarial Assumptions**

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2016
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Discount Rate	8.00%
Long-term expected Investment Rate of Return	8.00%
Inflation	2.5%
Salary Increases	3.5% to 9.5%
Payroll Growth Rate	2.5%
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

**Discount Rate**

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**Note 11 - Defined Benefit Pension Plans (continued)**

**Discount Rate (continued)**

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

**Discount Rate Sensitivity Analysis**

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2016 Net Pension Liability.

	<b>Discount Rate</b>		
	<b>1% Decrease (7%)</b>	<b>Current Discount Rate (8%)</b>	<b>1% Increase (9%)</b>
District's proportional share of the net pension liability	\$ 45,343,987	\$ 29,298,357	\$ 15,688,419

**Note 11 - Defined Benefit Pension Plans (continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2017, the District reported a liability of \$29,298,357 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportion of the net pension liability	0.0775%
District's proportionate share of the net pension liability	\$ 29,298,357
State's proportionate share of the net pension liability associated with the District	<u>52,312,335</u>
	<u>\$ 81,610,692</u>

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2016.

At August 31, 2016 the employer's proportion of the collective net pension liability was 0.0775% which was an increase from its proportion measured as of August 31, 2015 of 0.0696%.

**Changes since the Prior Actuarial Valuation**

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$4,760,492 as well as revenue of \$5,428,773 representing pension expense incurred by the State on behalf of the District.

**Note 11 - Defined Benefit Pension Plans (continued)**

At June 30, 2017, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 459,393	\$ (874,832)
Changes of assumptions	892,961	(812,112)
Net difference between projected and actual earnings on pension plan investments	5,645,833	(3,164,909)
Changes in proportion and differences between District contributions and proportionate share of contributions	6,373,586	(2,395)
District contributions subsequent to the measurement date	2,174,380	-
Total	<u>\$ 15,546,153</u>	<u>\$ (4,854,248)</u>

The \$2,174,380 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended June 30</b>	<b>Expense Amount</b>
2018	\$ (1,438,757)
2019	(1,438,757)
2020	(3,021,211)
2021	(1,317,171)
2022	(873,626)
Thereafter	(428,003)
	<u>\$ (8,517,525)</u>

**Note 12 - Retiree Health Plan**

**Plan Description**

*Plan Description.* The Deer Park Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at [www.trs.state.tx.us](http://www.trs.state.tx.us) under the TRS Publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

**Note 12 - Retiree Health Plan (continued)**

*Funding Policy.* Contribution requirements are not actuarially determined but are legally established each biennium by the Texas legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas contribution rate was 1 percent effective September 1, 2014, while active public school employee contribution rate was 0.65 percent of public school payroll, with school districts contributing a percentage of payroll set aside at 0.55 percent for fiscal years 2017, 2016, and 2015. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25 percent or greater than 0.75 percent of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribute 1.0 percent effective September 1, 2014. The District contributed 100% of the annual required contribution for fiscal year 2017, 2016, and 2015.

Contributions made by the State, District and staff members to TRS-Care for the years ended June 30, 2017, 2016 and 2015 are as follows:

<b>Fiscal Year</b>	<b>State TRS Care Contributions Made on Behalf Of the District</b>	<b>District Required Contributions To TRS Care</b>	<b>Staff Members' Contributions To TRS Care</b>	<b>District's Annual Covered Payroll</b>
2017	\$ 835,792	\$ 601,348	\$ 566,146	\$ 87,099,420
2016	803,533	579,676	544,901	83,830,839
2015	733,313	530,111	497,712	76,571,211

For the current fiscal year and each of the past two years, the District's actual contributions were equal to 100 percent of the required contributions. The contributions made by the State on behalf of the District have been recorded in the governmental funds financial statements of the District as both state revenues and expenditures. These contributions are the legal responsibility of the State.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the year ended June 30, 2017, June 30, 2016 and June 30, 2015, the subsidy payments received by TRS-Care on behalf of the District were \$259,228, \$326,221, and \$224,777, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statement of the District.

**Note 13 - Risk Management**

**Property/Liability**

The District is exposed to various risks of loss related to property/liability losses for which the District carries commercial insurance.

**Health Insurance**

Prior to January 1, 2013, the District established a modified self-insurance plan to provide health insurance to employees and their dependents. The District contributed a minimum of \$230 per month per employee that participated in the plan; employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. Premiums were paid into the internal service fund by all other funds and were available to pay claims, claim reserves, and administrative costs of the program. These interfund premiums were reported as revenues in the internal service fund.

Liabilities of the fund were reported when it was probable that a loss had occurred and the amount of the loss can be reasonably estimated. Liabilities also included an estimated amount for claims that had been incurred but not reported (IBNRs). The result of the process to estimate the claims liability was based on the District's historical experience. An excess coverage insurance policy covered individual claims in excess of \$100,000. The District also had an aggregate excess insurance policy with an excess limit of \$1,000,000. There were no significant reductions in insurance coverage from the prior period. Settlements have not exceeded coverage's for each of the past three fiscal years. Changes in the balances of claims liabilities during the past three years are as follows:

<u>Fiscal Year</u>	<u>Beginning of Year Accrual</u>	<u>Current Year Estimates</u>	<u>Claims Payments</u>	<u>End of Year Accrual</u>
2017	\$ -	\$ 2,640	\$ 2,640	\$ -
2016	-	18,673	18,673	-
2015	-	8,337	8,337	-

Subsequent to January 1, 2013, the District was no longer self-insured for health insurance, however, the self-funded insurance program continues to provide funding for run out claims incurred prior to January 1, 2013.

**Workers' Compensation**

The District established a limited risk management program for workers' compensation in 2006 by participating as a self-funded member of the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and Chapter 504, Texas Labor Code. As a self-funded member of the Fund, Deer Park ISD is solely responsible for all claims costs, both reported and unreported. The Fund provides administrative service to its self-funded members including claims administration and customer service.

Premiums are paid into the internal service fund by all other funds and are available to pay claims, claim reserves, and administrative costs of the program. These interfund premiums are reported as revenues in the internal service fund.

**Note 13 - Risk Management (continued)**

**Workers' Compensation (continued)**

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities also include an estimated amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors.

The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from stop-loss or subrogation, are another component of the claims liability estimate. An excess coverage insurance policy covers individual claims in excess of \$300,000 up to the statutory limits for any given claim. There were no significant reductions in insurance coverage from the prior period. Settlements have not exceeded coverage's for each of the past three fiscal years.

Changes in the balances of claims liabilities during the past two years are as follows:

<u>Fiscal Year</u>	<u>Beginning of Year Accrual</u>	<u>Current Year Estimates</u>	<u>Claims Payments</u>	<u>End of Year Accrual</u>
2017	\$ 168,631	\$ 347,179	\$ 296,536	\$ 219,274
2016	283,346	218,342	333,057	168,631
2015	263,633	406,184	386,471	283,346

**Note 14 - Shared Service Arrangements/Joint Ventures**

**A. Visually Impaired Shared Service Arrangement**

The District is the fiscal agent for a Shared Service Arrangement (SSA) which provides teachers for the visually impaired to member districts. In addition to the District, other member districts include five (5) districts and one cooperative as follows:

Barbers Hill ISD	Channelview ISD	Goose Creek ISD
Liberty County Co-op	Sheldon ISD	La Porte ISD

All services are provided by the fiscal agent and the manager is responsible for all financial activities of the shared services arrangement. According to guidance provided in the Texas Education Agency's Financial Accountability and Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in Special Revenue fund No. 434. Funds are provided by state appropriations through an education service center. Revenues and expenditures are summarized as follows:

Revenues	
5700 Local revenue from member districts	\$ 87,324
5800 State revenue distributed by TEA	42,330
	<u>\$ 129,654</u>
Expenditures	
6100 Payroll costs	\$ 129,654
	<u>\$ 129,654</u>

**Note 15 - Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of management and the District's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

**Note 16 - Arbitrage**

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. The District has estimated that it has no arbitrage liability as of June 30, 2017.

**Note 17 - Contracted Instructional Services between Schools**

During the year ended June 30, 2017, the District purchased attendance credits to equalize its wealth per weighted average daily attendance ("WADA") in the amount of \$2,640,356.

**Note 18 - Related Organizations**

The Deer Park Education Foundation ("Foundation"), a non-profit entity which was organized to provide educational grants, is a "related organization" as defined by *Government Accounting Standards Board* Statement No. 61. The members of the Board of Directors of the Foundation are appointed by an outside taxpayer group.

**Note 19 - Tax Abatements**

Currently, the District has three (3) active Chapter 313 Agreements with corporations for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes pursuant to the Chapter 313 of the Texas Tax Code, i.e., the Texas Economic Development Act, as set forth in Chapter 313 of the Texas Tax Code, as amended.

Value limitation agreements are a part of a state program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in statute. The project(s) under the Chapter 313 agreement must be consistent with the state's goal to "encourage large scale capital investments in this state." Chapter 313 of the Tax Code grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and data centers.

**Note 19 - Tax Abatements (continued)**

In order to qualify for a value limitation agreement, each applicant has been required to meet a series of capital investment, job creation, and wage requirements specified by state law. At the time of the application's approval, the agreement was found to have done so by both the District's Board of trustees and the Texas Comptroller's Office, which recommended approval of the project. The application, the agreements and state reporting requirement documentation can be viewed at the Texas Comptroller's website: <https://www.comptroller.texas.gov/economy/local/ch313/agreement-docs.php>. The agreement and all supporting documentation was assigned Texas Comptroller Application number.

The following Chapter 313 Agreements are in effect:

Gemini HDPE LLC (Application No. 240) first year's value limitation was tax year 2015. The project value's value limitation is \$80,000,000, with a total project value of \$117,922,080. The applicant's M&O taxes have been reduced by \$468,982. However, the District's net benefit to the District was \$161,051.

The Lubrizol Corporation (Application No. 1084) first year's value limitation will be fiscal year 2019. Therefore, there was no current year value limitation, reduction in taxes, or net benefit loss.

Equistar Chemicals, LP (Application No. 1139) first year's value limitation will be fiscal year 2019. Therefore, there was no current year value limitation, reduction in taxes, or net benefit loss.

**Note 20 - Subsequent Events**

On September 8, 2017, the District issued \$17,970,000 in Limited Tax Refunding Bonds, Series 2017. The proceeds of the bonds were used to refund a portion of the District's outstanding bonds.

See Notes to Required Supplementary Information

**A. Budgets and Budgetary Accounting**

The District adopts annual appropriations type budgets for the General Fund, Child Nutrition Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund and Child Nutrition Fund during the fiscal year ended June 30, 2017. During the year ended June 30, 2017, the Board of Trustees approved budget amendments increasing General Fund expenditures in the amount of \$823,829.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by June 30, 2016. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

The District's actual total expenditures exceeded final budgeted amounts in the General Fund's function 51 in the amount of \$272,483 due to more than expected TRS on-behalf contributions. However, overall the District operated within the adopted final budget.

The District's actual total expenditures exceeded final budgeted amounts in the Debt Service Fund's function 73 by \$327,471 due to the issuance of the Series 2016 bonds during the current year.

**SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE  
NET PENSION LIABILITY**

**Teacher Retirement System of Texas  
Last Three Measurement Years (1)**

	<u>2016</u>	<u>2015</u>	<u>2014</u>

Total	<u>\$ 81,610,692</u>	<u>\$ 73,675,215</u>	<u>\$ 56,216,711</u>
District's covered-employee payroll (for Measurement Year)	\$ 85,274,708	\$ 76,516,633	\$ 77,730,328
District's proportionate share of the net pension liability as a percentage of it's covered-employee payroll	34.4%	32.2%	17.7%
Plan fiduciary net position as a percentage of the total pension liability *	78.00%	78.43%	83.25%
Plan's net pension liability as a percentage of covered-employee payroll *	92.75%	91.94%	72.32%

The amounts are presented for each Plan year which ends the preceding August 31 of the District's fiscal year.

\* Per Teacher Retirement System of Texas' comprehensive annual financial report.

Note (1): Ten years of data should be presented in this schedule but data is unavailable prior to 2014. Net pension liability and related ratios will be presented prospectively as data becomes available.

Contributions as a percentage of covered employee payroll	2.95%	2.87%	2.51%	1.66%

Note (1): Ten years of data should be presented in this schedule but data is unavailable prior to 2014.

**Notes to Required Supplementary Information**

Effective September 1, 2014, employers who did not contribute Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

**Changes of Assumptions**

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

**Changes of Benefit Terms**

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees  
Deer Park Independent School District  
Deer Park, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Deer Park Independent School District (the “District”), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise District’s basic financial statements, and have issued our report thereon dated November 7, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Trustees  
Deer Park Independent School District

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR  
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED  
BY THE *UNIFORM GUIDANCE***

To the Board of Trustees  
Deer Park Independent School District  
Deer Park, Texas

**Report on Compliance for Each Major Federal Program**

We have audited Deer Park Independent School District’s (the “District”) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended June 30, 2017. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

***Management’s Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor’s Responsibility***

Our responsibility is to express an opinion on compliance for each of the District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Title 2 U.S *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District’s compliance.

***Opinion on Each Major Federal Program***

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

To the Board of Trustees  
Deer Park Independent School District

### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Note 1 - Summary of Significant Accounting Policies**

The District accounts for all awards under federal programs in the General and Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

All federal grants are subject to review by the grantor agencies. Any expenditures identified by the grantor agencies as disallowed could require reimbursement to the grantor agency from the District's general fund.

**Note 2 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

**Note 3 - Reconciliation to Basic Financial Statements**

The following is a reconciliation of expenditures of federal awards program per Exhibit K-1 and expenditures reported on Exhibit C-3:
